

- 1. Bin bags for the kitchen and bathroom bins are kept under the kitchen sink . Please tie and put full bags in the bin outside the bungalow kitchen door. There is a recycling sack next to the fridge (glass plastic bottles etc,) . Leave outside when full so it can be emptied.**
- 2. The bungalow is cleaned according to Health First protocols before you check in. If you need any house-keeping service during your stay other than towel changes and sheet changes (depending on length of stay) there is a mop broom chlorine spray and cleaning liquid in each Bungalow for your convenience.**
- 3. You do not need to do anything for checking out, however we would appreciate if you did not leave dirty dishes in the kitchen sink, or anywhere else.**
- 4. The fob and keys will be collected by someone when checking out . Please make sure all remotes for the televisions and aircons are in their places. If you are checking out very early open the automatic gate with the fob and leave the gates open for the taxi or your hire vehicle to leave. Leave fob and keys on the kitchen table.**
